CARE, HEALTH, AND SOCIETY (BS)

CAREER LEVEL
Undergraduate

DEGREE
Bachelor of Science

COLLEGE
College Of Social And Behavioral Sciences

The Bachelor of Science in Care, Health, and Society provides a complete overview of the world of sociology related to health care and caring. The knowledge of helping professions and supporting career, ethical issues, inter-professional care and communication, suffering and care in society, statistics, and advocacy or organizational dynamics, gained from a major in Care, Health, and Society, forms a solid career foundation. Graduates are well prepared to work in medical and health care support, public and social services, administration, human services, and community outreach. This major is also excellent preparation for graduate studies in nursing.
