Master of Public Health

COLLEGE
Zuckerman College Of Public Health

With concentrations in Applied Epidemiology, Health Promotion and Health Services Administration, our Online Master of Public Health is designed to prepare you to make a broader impact in your community and around the globe in the public health arena.

Through a blend of groundbreaking research, theory and a real-world view of today's public health issues, our program provides an education that is being applied across geographical and cultural borders to promote a healthy, happier society. Our world-class faculty of public health leaders helps create a dynamic online learning experience built on direct interaction, collaborative discourse and integrative thinking.
