NURSING (PHD)

**CAREER LEVEL**
Graduate

**DEGREE**
Master of Science in Nursing

**COLLEGE**
College Of Nursing

The PhD in Nursing is ideal for the student who wants to focus on research in a clinical, academic, or scientific environment.

You may enter the PhD level of graduate study as a post-BSN student, as a student who has attained the master's degree in nursing or a student who has attained a DNP. Part-time and full-time options are available. Part-time and full-time options are available. As a PhD graduate you will: Generate and disseminate knowledge to advance nursing science and facilitate its translation into practice; design and evaluate innovations to improve health outcomes; engage in and lead collaborative research teams; and influence health science agenda-setting and policy initiatives. Course work in nursing and other sciences are emphasized during the early portion of an individualized program of study. As you continue through the program time is increasingly devoted to research and conducted under the supervision of a faculty researcher and mentor.

At the College of Nursing all doctoral students are required to attend RISE: Resident Intensive Summer Experience, in Tucson, AZ on an annual basis. During RISE, students will: Become immersed in courses and research tailored to each specific program and specialty. Meet with faculty advisors, fellow classmates and Graduate Student Services staff. Learn more about the degree program, explore coursework, and explore funding opportunities. Collaborate with students, faculty and staff. Please contact Office of Student Affairs, (520) 626-3808 or advanced@nursing.arizona.edu, with any questions.
